navy midnight  
press

## Hello, friends!

Navy Midnight Press is all about the infinite possibility contained in small simple moments - like opening a lovely envelope, wondering what you'll find.

We love nature in all its serendipitous beauty. And we love the power and drama of simple forms and colors.

Letterpress printing provides a warmth, dimension, and beautiful variability that suits our mission perfectly: embrace life's little surprises (sometimes easier said than done, I know!) because they often lead us to places we'd otherwise never reach.

### design and letterpress process

Our designs begin as hand drawings which are ultimately printed by hand on an antique letterpress. I love the tactility of the letterpress process and print on heavyweight cotton paper for the luxurious look and feel - as well as the environmental benefits of using tree-free paper made from reclaimed fibers that would otherwise be discarded by the cotton industry.

We love heavyweight paper and the texture and warmth of letterpress printing.

Letterpress is a handmade process. Slight variations in ink color and coverage are to be expected and give the process its unique character.
